Technology Partner Solution Brief

Network Security Posture Management for Arista

Simplifying Network Complexity

Tufin simplifies network complexity with an AI-powered control plane that delivers centralized visibility, automated policy orchestration, and continuous compliance across on-premises firewalls, cloud platforms, SASE, SD-WAN, and microsegmentation.

Tufin's network security policy management platform enhances the Palo Alto business value proposition by managing and unifying security policies across Arista EOS firewalls and VeloCloud SD-WAN devices.

Benefits to Your Business

Prove Compliance Anytime: Continuously validate security posture with automated controls, cutting audit prep time and reducing compliance risk

Simplify Operations: Visualize your entire hybrid network in real time, unify fragmented processes, and accelerate troubleshooting

Automate with Confidence: Eliminate manual tasks by orchestrating policy changes across multi-vendor environments, consistently and risk-free

Strengthen Security Posture: Gain centralized visibility and unified enforcement to proactively close gaps before they become problems

1	aws AWS-IT				Last hit N/A	Last modified 922 days ago	Crit. Exp 119 days ago
	Source ⚑ Destination	✓	No comment		Permissiveness N/A	Shadowed N/A	Violations High
1	◯ GCP				Last hit Today	Last modified 199 days ago	Crit. Exp 243 days ago
	Source ⚑ Destination	✗	Please delete		Permissiveness High	Shadowed N/A	Violations Critical
113	paloalto Prisma Access (PAN)				Last hit N/A	Last modified 161 days ago	Crit. Exp in 94 days
	Source ⚑ Destination	✓	Allow traffic to corporate website		Permissiveness Low	Shadowed No	Violations Medium

Tufin Rule Viewer: Track every rule, change, and violation across your hybrid network.

What You Can Do with Tufin + Arista

1 **Unified Visibility**
See Arista devices and traffic flows in the context of your entire hybrid topology.

2 **Automated Policy Orchestration**
Assess and implement policy changes with built-in risk analysis and compliance validation.

3 **Continuous Compliance**
Track every rule, change, and violation across Arista devices and multi-vendor infrastructure for always-on audit readiness.

4 **Streamlined Workflows**
Integrate Arista into ITSM systems (e.g., ServiceNow) for automated, policy-driven approvals and faster turnaround.

5 **Consistent Enforcement Everywhere**
Standardize policy controls across Arista, other vendors, and multi-cloud environments.

Tufin integrates with vulnerability scanners to identify firewall rules that expose assets to known vulnerabilities.

About Tufin

Tufin helps enterprises govern and secure connectivity across today's complex multi-vendor networks. As the leader in network security posture management, Tufin provides the trusted control layer organizations need to understand exposure, automate policy changes safely, and maintain continuous security posture across on-premises, cloud, SASE, microsegmentation, and hybrid environments. Built on customer-proven network automation playbooks and the industry's only Dynamic Network Connectivity Graph, Tufin is bringing Multi-Vendor Agentic Network Security to the enterprise - helping organizations move from visibility to governed, AI-driven action.
