

Solution Brief

Tufin SecureAdapt+: Tailor-Made Network Security Solutions for Your Business

Tufin SecureAdapt+ is a comprehensive, customizable solution that helps organizations optimize and extend their Tufin Orchestration Suite (TOS). By offering tailor-made integrations, custom reports, and unique workflows, SecureAdapt+ ensures that Tufin's network security management solutions meet the evolving needs of your business. Whether it's integrating new technologies, streamlining operations, or adapting to a growing infrastructure, SecureAdapt+ delivers long-term value with continuous support and innovation.

Tailor-Made Solutions to Meet Your Needs

Tufin SecureAdapt+ is designed to make your TOS environment more efficient and adaptable by offering personalized solutions. These solutions are continuously supported and maintained throughout the three-year licensing period, ensuring that your TOS is always optimized to meet your security and business requirements.

Key Features of SecureAdapt+:

- **OPM Client:** Tailor-made integrations built using Tufin's OPM Framework to support any device in your network
- **Custom Integrations:** Seamlessly add new technologies and systems to your Tufin ecosystem. Integrate with network devices, SIEM, ITSM, IPAM, and vulnerability analysis tools, ensuring synchronization across your hybrid network.
- **Tailored Reports & Dashboards:** Create custom reports and dashboards to meet unique business needs, with the ability to automate report generation and monitor key metrics.
- **Personalized Workflows:** Develop workflows that align with your specific business processes, including conditional management, dynamic assignment, and automated group change workflows.
- **Custom Web Portals:** Streamline operations with portals that enable secure change ticket generation, change window scheduling, and user-specific rule access.

Drive Business Outcomes with SecureAdapt+

SecureAdapt+ delivers results by eliminating gaps in functionality and reducing disruptions from piecemeal projects. With tailored integrations and workflows, your TOS environment evolves to meet the specific requirements of your business, allowing you to maintain momentum while ensuring predictable results.

Key Benefits:

- **Workflow Efficiency:** Avoid disruptions from fragmented projects and maintain operational continuity.
- **Cost Predictability:** With a fixed licensing model, you can forecast costs without the need for renegotiation each time a change is required.
- **Future-Proofing:** SecureAdapt+ solutions are designed to evolve as your business grows, ensuring long-term scalability and adaptability

Long-Term Value and Subscription Benefits

Tufin SecureAdapt+ offers ongoing support and value through a subscription model that ensures flexibility, scalability, and continuous enhancement over the license term. This long-term partnership provides you with:

- **Continuous Value:** SecureAdapt+ evolves alongside your business, ensuring that your network security solutions remain aligned with your changing needs.
- **Scalability:** As your infrastructure grows, SecureAdapt+ allows you to extend coverage and integrate additional technologies without the need for complex reconfigurations.
- **Subscription Advantage:** A predictable, multi-year subscription provides cost efficiency and guarantees ongoing innovation and support.

How SecureAdapt+ Works

Tufin SecureAdapt+ is licensed for a three-year period, with pricing based on device licensing or per-solution models for larger deployments. The subscription includes continuous maintenance, minor enhancements, and access to a wide range of tailor-made integrations and reports.

Steps to Engage with SecureAdapt+:

1. **Request SecureAdapt+:** Engage with Tufin's sales team to request a SecureAdapt+ license tailored to your needs.
2. **Sign the Statement of Work (SoW):** Customize the SoW based on your specific requirements and desired outcomes.
3. **Annual Renewal:** SecureAdapt+ licenses are renewed annually, with a simple order form and pricing structure.

Tufin SecureAdapt+ ensures that your Tufin Orchestration Suite is more than just a network security solution — it becomes a customizable, adaptable, and scalable system designed to grow with your business. With tailored integrations, custom workflows, and ongoing support, SecureAdapt+ provides long-term value and a predictable, cost-effective way to manage your network security.
