# Network Security Policy Orchestration for HPE Aruba Networking CX Switches & CX 10000

Benefits to Your Business

- **Streamline Regulatory Compliance**:

  Validate posture automatically and cut audit prep time

- **Accelerate Network Operations:**

  Visualize hybrid networks in real-time and reduce resolution time

- **Boost Operational Efficiencies:**

  Eliminate manual tasks and enforce policy consistently

- **Improve Posture Risk:**

  Gain complete control and close gaps before they become problems

Tufin and HPE Aruba Simplify Security Policy Management

As organizations expand across hybrid environments, HPE Aruba switches and firewalls play a key role in ensuring scalable and efficient connectivity. With Tufin support, HPE Aruba customers can extend centralized policy control across their hybrid environments - bridging on-premises, cloud, and edge environments through a single, unified management platform.

Tufin Rule Viewer: Track every rule, change, and violation across your hybrid network.

Tufin's integration with HPE Aruba enables end-to-end visibility into security configurations and traffic flows. This gives teams the context they need to identify misconfigurations, reduce risk, and implement policy changes confidently and quickly. With Tufin, organizations can automate policy change requests involving HPE Aruba devices, ensuring they are validated for risk and compliance before implementation. This reduces security risks, while built-in tracking supports audit-readiness and continuous policy hygiene.

What You Can Do with Tufin + HPE Aruba

1 Visualize HPE Aruba devices in real-time topology

2 Automatically assess risk and compliance of proposed policy changes

3 Track every rule, change, and violation across your hybrid network

4 Integrate HPE Aruba into ITSM workflows (e.g., ServiceNow) for faster turnaround

5 Standardize policy enforcement across vendors and technologies

Tufin Topology: Visualize HPE Aruba devices in real time.

About Tufin

Tufin provides a single platform for network security teams and firewall administrators to simplify the management of security policies across today's complex, multi-vendor on-premise and cloud networks. The platform gives some of the largest companies in the world the end-to-end visibility and automation tools necessary to swiftly provide new access, enable fast and secure application deployment, and ensure continuous compliance and audit readiness. Tufin's proven solutions have helped more than 2,900 customers across industries including healthcare, financial services, utilities, telecommunications, and retail to quickly identify and mitigate network risks.
