The new T-Series Appliances are a Tufin-in-a-box solution that provides IT organizations with a quick, robust installation that lowers total cost of ownership. T-Series Appliances are designed and built pre-installed with Tufin Orchestration Suite to fully optimize performance. Using distributed deployment architecture, Tufin’s T-Series Appliances enable virtually unlimited scalability – multiple appliances can be connected on-demand at multiple sites, according to network needs. With enterprise-grade memory and SSD drives, the T-Series combines power and flexibility in several models to scale to the needs of mid-size to large enterprises and ensure optimal performance for your organization. All Tufin Appliances are rigorously lab-tested by our network security experts.
